Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3,12,13 rejected under 35 U.S.C. 103(a) as being unpatentable over Issac (3844563) in view of Chittenden (3155391)

Issac teaches a method of playing a board game for four players (1:47), square configuration with at least 11X11 spaces with (Fig.2), a central safety space (14), it is further well known that in the game of checkers pieces move in diagonal directions in dark or white spaces inherently teaching move and non-move spaces, arranging playing pieces, jumping, capturing are conventional movements.

Issac teaches all limitations except that it does not teach directional indicia and color for each player on each edge.

Chittenden teaches placing directional indicia and color on each edge for each player (1:60-2:15).

Whereas some players can remember all moves on the board others such as new players find it hard to play a game.

In order to make it easy for new players to understand moves in a game, it would have been obvious the place directional indicia on spaces for their ready

reference. This will make it easy to learn the game and also to eliminate any confusion.

One of ordinary skill in art at the time the invention was made would have suggested placing directional indicia for players on the spaces.

Claims 12,13: Limitations are intended use of the method and do not further limit the claim.

Allowable Subject Matter

3. Claims 4-11 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
